

CheckAlt An E-Check Payment Solution

Brought to you by DirectFed Payment Solutions

Increase your revenue and customer satisfaction with the ease of online payment via e-checks through CheckAlt. In today's active marketplace, every dollar counts and if you already accept payments via check or credit card, CheckAlt will reduce your payment processing fees, help convert your receivables into cash and get you funds FASTER!

Lower Your Payment Processing Expenses!

Avoid paying credit card fees. Eliminate wire fees. Save on overhead associated with paper payment processing. Pay a low per-transaction fee. Receive a portion of NSF fees and never be charged for represented items.

Reduce Your Losses!

CheckAlt reduces losses before they happen by using the largest check-writer database in the country and 90 proven risk parameters. CheckAlt draws on the strength of solid and reliable processing, coupled with unique risk management features to help you mitigate losses associated with accepting ACH transaction payments. CheckAlt's process also significantly reduces your chargeback exposure.

Up and Running within 72 Hours!

Visit our website to fill out a simple application. We will respond to you within 72 hours, and we will never reject a merchant based on their MATCH list status.

CheckAlt is a paperless, green alternative to traditional payment via check. CheckAlt's team is dedicated to reducing the ecological footprint of the payment industry.

Why Use E-Checks

There are 40 million households using electronic payments today. Consumers will expect and demand this payment option from their merchants. Supplement your existing payments by offering an e-payment option to your customers through CheckAlt. Your customers will appreciate helping the planet by reducing paper, while avoiding postage and wire fees. ACH saves money and increases service to your customers.

About DirectFed Payment Solutions

DirectFed Payment Solutions, founded as Skyline's DirectFed in 2004, was the first business-centric processor performing Remote-Deposit-Capture. We offer a patented suite of products that reduce float time, reduce bank fees and provide significant back-office savings by utilizing new laws and cutting-edge technology.
