

Alogent[®] Commercial Remote Deposit

Drive Revenue Growth and Secure High-Value Commercial Client Relationships With RDC

Alogent[®] Deposit Automation Solutions

Manage It. Measure It. Expect It.

Alogent® Commercial Remote Deposit provides financial institutions an industry leading, full-service offering that helps increase their ability to acquire deposits, secure high-value commercial client relationships, expand geographic reach, and generate fee-based revenue. The solution differentiates the financial institution in a competitive market by providing an exceptionally user-friendly environment for commercial clients to conveniently make deposits from their offices – saving trips to the bank, eliminating the risks and delays associated with paper-based transaction processing, and accelerating their funds availability.

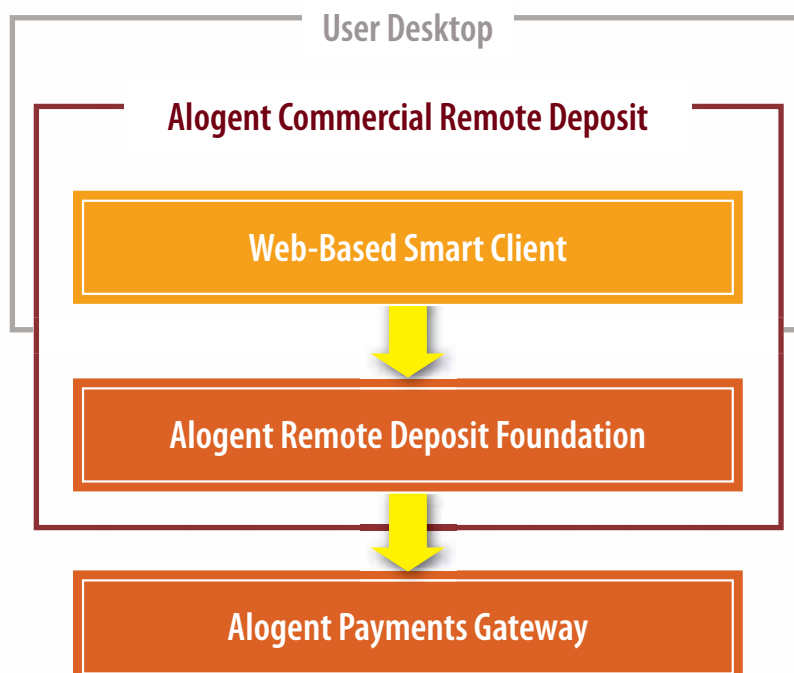

Alogent Commercial Remote Deposit allows financial institutions to service their most demanding commercial clients with advanced security, entitlements, and risk mitigation capabilities. Built on the Alogent Remote Deposit Foundation, which also supports Alogent Retail Remote Deposit, the solution delivers the scalability, stability, and performance financial institutions need to meet the demands of the most wide-reaching deployments.

Solution Components

Alogent Commercial Remote Deposit is a Web-based application built with a rich user interface and smart client technology specifically designed for the demands of medium and large-volume depositors. ProfitStars' smart client technology delivers streamlined, efficient transaction processing while supporting very large transactions and optimized workflows for commercial clients.

Alogent Commercial Remote Deposit can be fully branded and integrated with existing online banking and portal sites, facilitating user adoption. Integration can leverage existing investments in user entitlement and authentication systems and can be performed using single sign-on (SSO) or Web services. Behind the scenes, the solution leverages the Alogent Payments Gateway which accepts, manages, and routes transactions received from Alogent Remote Deposit and other service channels.

Flexible deployment options, configurable business rules, and experienced professional services resources can be used to tailor Alogent solutions to meet the specific needs of the most sophisticated financial institutions.

Key Benefits

Revenue

Alogent Commercial Remote Deposit is an essential, high-value offering, which enables financial institutions to acquire and retain profitable commercial client relationships. The solution puts financial institutions in a better position to increase deposits and fee-based revenue streams, regardless of branch locations.

Customer Satisfaction

Customers save the time and expense required to prepare, transport and deposit transactions at physical branch locations. They also can consolidate banking relationships with preferred providers, achieve improved funds availability and take advantage of extended cutoff times.

Cost Savings

Extending image capture all the way to the offices of commercial clients helps maximize the cost savings available through image-based transaction processing. This includes transportation, facilities and other item processing costs, and the elimination of paper documents.

Improved Efficiency

The use of the latest image-based processing technologies streamlines the user experience, automates transaction workflows and ensures transaction accuracy, integrity and conformance with image quality standards.

Risk Mitigation

The operational risks associated with paper-based transaction processes including couriers, paper handling and other manual processes are reduced or eliminated. Image-enabled transaction workflows also recognize suspected duplicates, nonconforming items and other exceptions. Risks are further reduced through comprehensive access controls, encryption and tracking of user activity.

Ease of Deployment and Performance

ProfitStars' provides proven scalability, stability and performance to meet the needs of the most wide-reaching deployments in addition to flexible, straightforward deployment options and automated Web-based software updates.

Part of a Comprehensive Solution Suite

The Alogent Commercial Remote Deposit solution is fully integrated with Alogent Retail Remote Deposit and other proven Alogent deposit automation solutions from ProfitStars. This provides financial institutions with synergies and efficiencies across other point of presentment applications including branch front counter, branch back counter, retail remote deposit, ATM, cash vault, and correspondent banking applications. The vast majority of financial institutions that partner with ProfitStars have deployed more than one of our market-leading solutions.

What It Does

- ◀ Offers a user-friendly, Web-based smart client application for commercial remote deposit.
- ◀ Provides optimized workflows for both medium volume and large volume depositors.
- ◀ Supports centralized, automated Web-based software updates.
- ◀ Delivers real-time, customizable reporting with support for custom field definition and data export.
