

simply deposit[™]
mobile

Deposit checks whenever and wherever they are received

Simply Deposit Mobile[™] – now available on BlackBerry[®] and iPhone[™] mobile devices – integrates seamlessly into RDM's reliable and scalable RDC Client ITMS[®] WebClient.

- A mobile RDC solution allowing business customers to deposit checks whenever they are received
- Extend the reach of RDC wherever there's a wireless signal
- Image capture of the check with the mobile device camera
- Secure funds transfer, encrypted data
- User receives an instant deposit notification
- IQA, duplicate detection, MICR validation, deposit limits
