
Who We Are

Since our founding in 1998, CFC Technology has focused on the operational needs of financial institutions (community banks and credit unions). More than 850 customers across the United States have benefited from our ability to leverage the best, industry-specific hardware, software, and network systems to formulate total solutions, which feature on-site integration expertise, project management services, 24 X 7 help desk support, and hosting capabilities.

What We Do

CFC Technology un-complicates growth for financial institutions through the intelligent use and deployment of technology. Our approach to capture, compliance, and computing solutions allow FIs to choose tailored, on-site or cloud-based technologies that enhance merchant and consumer relationships.

Reliable Solutions

We provide FIs with capture, compliance, and computing solutions that are necessary to achieve their growth and profitability goals. We help FIs keep pace with rapidly changing technology requirements, allowing them to continue to create and foster strong business relationships with their clients.
